Reference. R3608324	Townhouse	Price € 385,000
La Mairena	Costa del Sol	Spain
Bedroom: 3	Bathroom: 3	

---

26 homes, with garages, rest on the slope of Mount Elvira, perfectly integrated into the natural environment surrounding them. These spacious townhouses have three bedrooms, large windows and terraces showcasing the majesty of the environment around them, while combining a modern aesthetic with high-quality materials.

It is much more than your future home. Bounded by an abundant vegetation indigenous to the area, here you and your family will find an ideal place to relax.

Every morning you can behold the sunrise from your terrace, which offers spectacular views, thanks to the property's east/northeast alignment.

And, thanks to its common areas, children will find a place to play and have fun too. Our 150 m2 pool will round out the ideal space to cool off on a hot day.

Your first point of contact with your townhouse will be on the roof level, from which you have access to the entire property. As you descend you come to the different rooms, including three bedrooms and different terraces. Finally, you reach the ground floor, where you find a spacious terrace and a large 35m2 living room with a modern fireplace. The installation of large windows in areas like the dining room, and the creation of open spaces, not only allows for natural light, but integrates the home into the property's natural landscape. Get-togethers with family and friends rise to a whole new level thanks to the priceless views.
